

**KIT JOHNSON**

PRINCIPAL

KJ@ARCHITECTURE365.COM

## EXPERIENCE

As a founding principal Kit brings to Architecture 365 a wide range of architectural experience.

Programming, master planning and designing **churches** has given Kit the privilege of helping people of faith express their devotion. **Loft conversions** in Dallas and urban mixed-use projects in Dallas, Austin, and San Francisco have taught the importance of adaptive reuse and creating stimulating places to live and work. Designing **single family residences** has afforded the opportunity to capture the unique dreams and visions of his clients.

Much of Kit's development as an architect must be credited to his former employers **Lake/Flato Architects** and **Overland Partners Architects**. As employers and mentors, these firms have instilled in Kit a passion for architecture that is rooted in its context, rich in materiality and stimulating with invention.

## ORGANIZATIONS

- Austin Stone Community Church
- American Institute of Architects
- Envision Central Texas
- Austin Green Building Program

DEBRA JOHNSON

INTERIOR DESIGNER

D.J@ARCHITECTURE365.COM

## EXPERIENCE

Debra Johnson is an Interior Designer with a background in both commercial and residential interiors—including corporate offices, museums, churches, loft conversions & single family homes.

Her recent focus at Architecture 365 has been church interiors and mixed-use urban infill projects. Debra has been very fortunate to work on some very unique single family residential projects—primarily the Hill Residence in Fredericksburg and the **Hunter House in Blanco** which was recently featured in *Martha Stewart Living*. High end interior finish-outs for **Nomura Asset Capitol** and the executive offices of **Charles Schwab** have also developed her skills in the artistry of detail and material selection.

Debra is passionate about the power of integrating the details of the interior environment with the architecture—allowing each to support the other. With her expertise and passion, she adds value to all of our projects regardless of size or type.

Much of Debra's development can be credited to **Gensler (San Francisco)** where she began her career—allowing her to see the importance of vision and tenacity in the integration of architecture and interior design.

## SELECTED PROJECTS

### Commercial Interiors

- Wildlife Experience Museum, CO (Overland Partners)
- State Fair of Texas, Mixed-Use Building, Dallas, TX

- Bachelor of Science-Commercial Interior Design, Cum Laude, University of Texas at Arlington School of Architecture, 1996
- Registered Texas Interior Designer, TBAE #9780

## PAUL KLOUBEC

PROJECT LEADER  
PK@ARCHITECTURE365.COM

### EXPERIENCE

Paul brings to Architecture 365 a mix of architecture, structural engineering and construction experience that enables him to fulfill his role as a project leader and to make sure Architecture 365 truly lives up to its goal to “Build Well.” Paul’s skill set is critical in making sure design concepts are followed through Construction Documents and into built reality.

Paul’s experience working for general contractors **Austin Commercial L.P.** and **Cash Construction** has given him an “other side of the fence” view of the design to construction process. This unique vantage point has disciplined his design process to make sure architectural concepts are fleshed out with constructability in mind.

Paul leads Architecture 365’s **BIM\* based design and production.**

Construction Engineering & Project Management

## CATHRINE TAIT

PROJECT LEADER  
CT@ARCHITECTURE365.COM

### EXPERIENCE

Cathrine possesses a range of project experience including residences, amenity centers, schools, churches, and commercial retail. Her team-oriented approach to project management produces well-designed, well-executed architecture.

Cathrine has had the opportunity to work in Baltimore, Maryland with **Buck Simpers Architects** and **CSD Architecture** before moving to Austin, Texas two years ago. Previous to Architecture 365, she was employed with **Clayton Levy & Little Architects** of Austin.

Cathrine actively works in Architecture 365's **BIM\* based design and production.**
