

BOCONCEPT FURNITURE STORE

Location Austin, Texas
Project Type Commercial
Year 2008
Size 5,473 SF
Client Hugh Landes

Located in Austin's growing 2nd street retail district, BoConcept brings modern Scandinavian furniture to the Austin market. Architecture 365 provided architect of record services and local coordination between the tenant and the City of Austin. Using standard design details from BoConcept's corporate office, Architecture 365 site-fit the design concept to a tenant space located in the Block 22 Amli Building. Like the furniture BoConcept creates, the retail showroom is spartan while being warm and comfortable.
